# Company Overview

Securetest Pty Ltd (ACN 123 050 091) is a HR Consulting Company that specialises in using psychometric and personality assessments in recruiting and people development projects. Securetest uses an Online Testing Platform to access a wide range of psychometric and consulting tools. In addition, Securetest offers an integrated Application Tracking System and testing platform.

## Mission

Securetest's mission is to provide excellent psychometric testing and consulting support to the HR industry.

## Our Profile

- **People.** Securetest's Principal is a registered psychologist and the company is committed to ongoing research, both in collaboration with clients and in ongoing research focusing on the security of online testing.
- **Capability.** As an independent consultancy, Securetest can access a wide range of consulting and psychometric tools. In addition, Securetest can manage the implementation of an integrated testing and application tracking solution.
- **Products.** Securetest advises on the use of assessments from ACER, Saville, Consulting Tools, Profile:Match, SHL, and many more.
- **Services.** Qualified psychologists support the interpretation of cognitive ability and personality testing, and manage projects including volume recruitment and technology solutions, Manager, Team Leader and Career Transition programs, and training in psychometric principles.
